

Bartłomiej Krawczak

Front-end developer

My name is Bartłomiej Krawczak. I study Computer Science at the Catholic University of Lublin. I am currently in my fifth year of study. I also worked as a PHP developer for RSoftStudio developing software for the privates and public client. My specialty is programming. I'm not afraid to learn and use as many technologies as I need. Personally, I feel good about front-end technologies such as HTML,CSS,Angular,React. I can also write in back-end technologies such as Laravel,Codeigniter,PHP.
